Health equipment program
- Basic health equipment to people who are recovering from surgery
- Free of charge loaned equipment
- Waiting list for operations, accept more patients
- 67 offices completely interior run
    - Staff Schedule shifts

Project:
- Create platform that helps staff manage volunteer schedules
    - Volunteers can put schedule into the system
    - Staff can put available shifts in
    - Right shifts with right availability, notifications to volunteers
    - Do not want to take shift? Coordinators are notified about vacant shift
    - SMS messages for the notifications
        - Text message is sent to all available for a new shift
- Different access for volunteers and staff
- Staff and coordinators need to receive notifications
    - Separate entities?
- Coordinators will give responses on functionality

Acknowledge effort
- What would be the timeline for the end of the semester?
    - What will be deliverable?
    - Team can add comments or suggestions for the next semester
